## EDUCATIONAL HISTORY

### Bachelor of Science in Computer Science

*ACLIC College of Santa Maria | 2022 – 2025*

- Academic Honors: Three consecutive years on the President's List.
- Major Awards: Recipient of Thesis of the Year and Web Developer of the Year at the Annual Programming Exhibit.
- Key Contribution: Architected and developed a full-stack ecosystem for my senior thesis, recognized for technical complexity, clean code standards, and real-world applicability.

## WORK EXPERIENCE

### Saabsoft Technologies

*Backend Developer | 2025 - 2026*

- Engineered Bitrix24 extensions and PHP webhooks to automate enterprise CRM workflows.
- Architected API integrations with Meta Ads, Zapier, and Wazzup for real estate lead management.

### The Roman Catholic Diocese of Malolos

*Programmer | 2024 - 2024*

- Contributed to the full-stack development of a centralized record-keeping system during my third year of college.
- Developed core modules for data entry and retrieval, improving the accuracy of digital membership archives.
- Collaborated on database schema design to ensure scalable and secure storage of sensitive community records.
